

Indravadan (Indy) Shah brings his skills into Indian classical music (Raaga's). Motivated to transform his music learning to treat mankind's diseases. Mr. Shah founded the company Raaga Music Therapy, LLC in association with Dr. Hetal Pathak and Praduman Jain.

Raaga Music therapy (RMT) has been in existence for some time. Mr. Shah wants to participate in active research to find out the measurable impact of music in treating various human diseases. The diseases susceptibility is based on profile of the person influenced by various sciences like astrology, psychology, three doshas like Vatta, Pitta & Kapha. The diseases have metaphysical effects driving negative emotions in human body. The RMT with correct recipe (positive emotions) is intended to treat the diseases as a supplementary therapy.

RMT, LLC intends to interact with individuals and institutions involved in treating diseases with Indian classical raga and prosper the research in RMT field to establish a relationship with measurable parameters during the treatment to validate the recipe of Raaga based intervention to treat the disease.

Mr. holds BSEE (India), MSEE from NJIT-USA, has worked for major USA corporations like Bendix & IBM. After leaving IBM Mr. Shah started products sourcing company to promote India suppliers to USA marketplace over 30+ years. Mr. Shah completed RMT course offered by Svaraveda foundation – India. Now Mr. Shah has taken up the promotion of Hindustani classical music to treat diseases worldwide.
